Complete Your Financial Aid Requirements Ineligible for Federal Student Aid (DACA/ASSET)

This is a tool you can use with your Campus Contact and/or Financial Aid Office to see if you've completed all your financial aid requirements at your college (if any). The goal is to help you keep track of what you've completed and what you still need to do. It's okay to ask for help!

DSF will still ask your college's financial aid office to confirm whether you met all requirements by July 15.

Let's get started!

- **DSF requires you to complete any financial aid requirements at your college by July 15.**
- If you're attending a public college/university, this includes completing an ASSET application for in-state tuition!
- Sometimes public colleges/universities refer to students who are not eligible for federal aid as "ASSET students."
- It may take several weeks, so start early, check your status often, and keep copies of everything you submit!
- Find your [DSF Campus Contact](#) and/or make an appointment to talk to the financial aid office at your college.

First Steps:

- I completed my college's application for ASSET, if available. This allows me to pay in-state tuition at a public college/university.
- I authorized my college to receive my Colorado Opportunity Fund (COF) stipend (the State of Colorado's contribution to my tuition at a public college/university).
- I set up my college email.
- I've logged in to my college student portal & checked my financial aid status, if available.

Now What?

You can work with your Campus Contact or your Financial Aid Office to make sure your financial aid requirements are complete and to figure out any next steps.
