CoorsTek Partners with Denver Scholarship Foundation to Prepare Denver Students for Success in the Workforce

Denver, Colo. – CoorsTek, Inc., a leading global manufacturer of engineered ceramics, is partnering with Denver Scholarship Foundation (DSF) to support Denver’s future engineers, researchers, and production operators on their journeys through college and beyond.

Through a \$20,000 investment in DSF Scholarships and career connectivity engagement efforts, DSF and CoorsTek will advance students’ navigation to the workforce through career exposure, exploration, and development opportunities, building a diversified talent pipeline in Denver.

“As an investment in our community’s future, CoorsTek is proud to support DSF Scholars in preparing for self-sustaining employment after college graduation through scholarships and engagement initiatives,” said Irma Lockridge, chief people and systems officer at CoorsTek and DSF Board Member.

Since DSF was founded, 13 years ago, 7,020 promise-based scholarships have been awarded to DPS graduates. The strategic investment in the community has provided \$43.4 million in scholarships to graduates who attend some of Colorado’s most prestigious colleges.

###

About the Denver Scholarship Foundation

Denver Scholarship Foundation (DSF) is a 501(c)(3) public charity whose mission is to inspire and empower Denver Public Schools’ (DPS) students to achieve their college goals. A direct service provider, DSF provides college and financial aid advice to Denver students and families and offers a renewable, need-based scholarship to support Scholars throughout their college careers. DSF also partners with colleges across Colorado to implement retention strategies that help Denver students complete their college education. DSF aims to create systemic change to prepare Denver’s youth to succeed in today’s evolving workforce.
